

Before Heideitime
Improvement

After Heideitime
Improvement

Sample sentence with date here

```
graph LR; A[Sample sentence with date here] --> B[No Dates Extracted]; B --> C["[date1, date2 etc.]"]
```

The diagram illustrates a workflow for date extraction. It starts with a sample sentence, which is then processed by a system. The initial state, labeled 'Before Heideitime Improvement', shows that no dates were extracted. The final state, labeled 'After Heideitime Improvement', shows that dates were successfully extracted and listed.

No Dates Extracted

[date1, date2 etc.]
